Dear Father,

When amidst many interruptions I drafted a letter intending revision I did not know that the DJ had complied with the court's direction that it decide. Today I received a letter in which instead of remitting costs or refusing to I was given a 40% discount.

When I began paying these costs that for me are considerable it was with the reservation of the right to recover them.

Whatever we get back will go to other FOIA cases through a Washington account on which I'm only drawn checks.

I am giving all these and all other records away. The FBI knows it all.

If you can help in any way, thanks.

I think a to whom it may concern letter is adequate. Probably better if not stated.

Best if sent to Jim at 1231 4 St., SW, D.C. 20024.

Best wishes,
