

Dear Jim,            Re: CTIA item in C.A.75-1996, Dallas F.O. letter of 4/6/78 to you-

I have difficulty believing that there are but 44 pages on Bud but maybe so.

Note that this letter does not state whether this is all the records, whether there are others that are withheld, what files they've searched or anything at all more than that unspecified "Records which you requested ... have been processed..."

Maybe the evasiveness is not intentional. But I think, given Bud and his activities and what Hoover thought - and said - of him it would be good to get a definitive response.

This is not the first F.O. to say that Bud is the requester. As I recall it I responded to Knoxville a month ago and have had no response from it. They made the same error and again from recollection were equivocal.

If you have not responded I suggest that you ask that they send the records to me. I'll then make a copy for you and send any comments I may have with it.

HW 4/12/78
