

Discovery Records

Dear Jim,

7/8/80

Would you please ask Bill Cole for these among the missing discovery and
consultancy records that the judge directed him to provide:

The Legal Counsel Division memo on the second meeting with Civil, 11/18/77;

The Legal Counsel Division memo on the in camera meeting.

No records like these were provided pursuant to the judge's directive.

The discovery records include Legal Counsel memos, with Charles Mathews' initials,
of before the first meeting, of the first meeting and of the month after we met with
the judge and then only. These indicate that at the least there should be two other
Mathews memos.

Records Management Division personnel participated in all these meetings. No copies
of any memos or other records of that Division have been provided.

All Civil Division records pertaining to the meetings and the consultancy have
not been provided.

My recent review of the delayed discovery records discloses what I regard as
important information about which I'll write you. It also indicates that the withheld
records will have important content.

Sincerely,
