Especially considering the short amount of time you had your ^opposition in 77-1831 / 78-1731 is superb!

If the court had the remotest notion of the shortness of time beginning after lunch the day you filed it they'd probably be more inclined to overlook spelling that is disastrously like mine.

Maybe there are citations of which ⁺ do not know and arguments also unknown to me but I think that unless the court is determined to duck you did it the right way and very well.

Thanks,
