JL- More now evidence re 1997; more on frauds on courts HW 3/30/79

The attached records are relevant to the false claims contrived by the CIA and Civil Division in 1997, perhaps in 226.

The affidavits provided in 1997 proclaim under oath the most urgent need to never disclose where the CIA has stations.

While I could not get to preparing a short memo for you on this until now, actually I first saw it 3/12/79, which is after the Civil/CIA combo prevailed by perjury.

These pages are from FBIHQ 105-82555, Serials 5678 and 5679.

Throughout it is disclosed that both the CIA and FBI have Mexico City operations.

More, the nature of some of the work is set forth. Like the CIA got 22 pix of Cuban Embassy employees.
