EXP-PROC.

U. S. Attorney General Ramsey Clark
Department of Justice
Washington, D. C.

o *Markin*

Dear Attorney General Clark:

I saw you on television on the ABC program today and you captured some ground that you had previously lost.

I agree with you that part of our trouble is a state of mind. In the south, looters would be annihilated and they know it.

My principle purpose in writing to you is to suggest that after the greatest man-hunt in the nation's history and the great necessity for a trial that you take no chances in bringing James Earl Ray back to this country.

Don't even take a chance with one boog. Send 'em.

Hoping that you lock upon this with all seriousness, I remain,

Very truly yours,

EX-116'
