all cases in files separate from the main assassination file (89-69) were identified for inclusion in the serial inventory and shipment to FBIHQ. New Orleans retains the search slips and workpapers and is prepared to execute affidavit regarding the procedure utilized.

In review of the inventory sheets, New Orleans resolved the anomalies noted. Serials which were skipped, repeated or inserted were so noted. Serials which were removed to other files were also noted, and when the secondary file was not one included in the shipment its status was noted (destroyed or title of case).

For information of FBIHQ, the following summarizes the size and volume of these files. The twelve (12) boxes are all 14" X 14" X 10" and average about 30 pounds each. This equates to be about 23,500 cubic inches, and about 360 pounds. The volumes occupied about 21 feet of shelf space or the equivalent of about three, five-drawer cabinets.

The above request is currently the subject of litigation and recently a review of the Kennedy assassination material by the Department of Justice has determined that the original search by New Orleans was properly conducted. However, the judgement by the Department in this appeal has raised some issues that need to be resolved. In furtherance of this New Orleans is requested to do the following:

1. Conduct a new search on all subjects which were previously searched.
2. Send all material on these subjects which have accumulated in your office since the files were sent to Headquarters.
3. Conduct a search on George DeMohrenschildt and send any material located on this subject to Headquarters.
4. Conduct a search for "any official or unofficial administrative files which pertain to the Kennedy case" and if any are located, send to Headquarters.
5. Conduct a search for "files on "critics" or "criticism" of the FBI's assassination investigation" and if any are located, send to Headquarters.

Please be advised that numbers 4 and 5 above were not requested in referenced telephone call.

FOIA REQUEST OF

Re Bureau airtel to New Orleans dated 2/3/81.

New Orleans indices have personally been reviewed by Privacy Control Officer SA Clifford H. Anderson for all the names and aliases of individuals and subjects listed below. No main files or "SEEC" references were found on any of these subjects as having been opened or serialized since 8/30/78, when all materials existent then on the same subjects were shipped to FOIPA Branch. Several of these names were indexed to 190-00 files but were found to be only referred to in administrative instructional directives from FBIHQ. These subjects are as follows:

- David Ferrie
- Fair Play for Cuba Committee
- James C. Garrison
- John F. Kennedy
- Lee Harvey Oswald
- Marguerite Claverie Oswald

SA Anderson then personally reviewed empty file covers for the main files on these same names and confirmed that no new materials or serials have been entered into those jackets since 8/30/78, with the following single exceptions:

The 35th volume of NO File 89-69, Bufile 62-109060, "Assassination of President John Fitzgerald Kennedy, November 22, 1963, Dallas, Texas," was started with serial 4713, to maintain New Orleans documents relevant to that case received or generated since 8/30/78. That volume extends to serial 4751, dated 8/5/80. It is noted that much of those documents have already been forwarded to, or were generated by, FBIHQ.

That entire original volume 35 (and serials 4713 - 4751) is enclosed.

New Orleans will start a volume 36 in that same file to receive subsequent serials.

FROM: SAC, NEW ORLEANS (190-34) (RUC)  
FOIA REQUEST OF HAROLD WEISBERG  
RE ASSASSINATION OF  
PRESIDENT JOHN F. KENNEDY

The following is set forth in response to Bucal of  
SCOTT KINSEY on 8/18/81:

Enclosed are 12 sheets containing copies of certain  
index cards from New Orleans indices, showing the indexed  
references, some of which were later determined to have been  
destroyed, in files pertaining to KENNEDY, OSWALD, GARRISON,  
and RUBY.

Also enclosed are 21 FD-478's, which document the  
regular destruction of those files. It is noted that a number  
of the indexed references pertaining to JIM GARRISON, in the  
indices search slips, dated 8/14/78, previously submitted to  
FBIHQ in this case, are now no longer maintained in the current  
New Orleans indices. This is because, after processing those  
references, Correlation Clerk JEAN B. HEARN, now retired, further  
correlated the index cards by eliminating entries thereon which  
had been determined to be destroyed. Nevertheless, the enclosed  
FD-478's positively document the proper destruction of those  
references so noted in the indices search slips.

In addition, one indexed reference for GARRISON,  
NO 80-505-198, was found to have been destroyed, since that  
control file re liaison with the Orleans Parish District Attorney's  
Office, although currently maintained as a file, had serials  
previous to #211 (Feb., 1974) destroyed.

NO 190-34

Also enclosed are five copies of other indexed references marked "irrelevant" on the indices search slips. These five are examples of those "irrelevant" notations, which show how those references were found to be totally outside the scope of the request when processed. In this regard, it is noted that JIM GARRISON was and is a wellknown public figure in New Orleans whose activities have been of interest to the public, media, and judicial community, totally divorced from the KENNEDY assassination and associated issues.
