Dear Steve,

*Cell ABC*

The enclosed are for the completeness of the file of the associate who is keeping an eye on such matters.

If he wants the FBI's Opposition, I'll be glad to make and send a copy.

They don't - and they apparently don't have to - make even pro forma denial of fraud, perjury and misrepresentation.

Although I do not believe that Weld is the United States Attorney for the District, that is what the Opposition represents.

And, of course, I do not expect the USA or the DJ to prosecute themselves.

Which is what I'm asking nonetheless.

Best wishes,
