Dear recipient,

Because you have not considered what I sent you earlier, which alleges to a federal court and documents that the FBI perpetrated knowing fraud, misrepresentation and perjury to procure a judgement against an FOIA requester, I am not enclosing the FBI's Opposition, in which it doesn't even bother to make pro forma denial of these felonies.

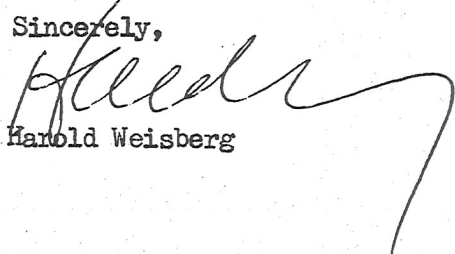

However, if you want its Opposition or my Response I'll make and send copies.

And this is so unreal that they've used the name of the United States Attorney in Boston as USA for the District!

Of course I do not expect him, under any name, to consider prosecuting himself or anyone else in the FBI or DJ for any offense, no matter how serious or documented.

But as a citizen I am asking him.

Sincerely,

  
Harold Weisberg
