Dear Fred,

*Graham*

By now I'm pretty well convinced that official fraud, perjury and misrepresentation are not news, even when documented, so I have no reason to believe that the FBI's failure to make even a pro forma denial will be considered news, but I send this so that, if you've kept the other filings, you'll have all I filed.

I address Weld as USA for the DC not because I have any reason to believe he is not in Boston but because that is what the Opposition actually represents.

However, I do not regard that as any more unreal than what I live through and observe, in news and in the courts.

Sincerely,

*Weld*
