Withheld and Relevant Marguerite Oswald Files

The Dallas and Ne Orleans FBI offices and FBIHQ all knew that they had and still withhold relevant records relating to Lee Harvey Osyald's mother. After many to by whith Weisberg i entering the confidence of these files to the appeals office it was provided, but the one identified in this BIHQ directive to Dallas and New Orleans, remains withheld. (In Dallas it is 10 0)

This tickler copy disc! o Mark Allen makes it clear that the FBI required no discovery from Web. g to be able to locate and process these relevant record and that no discovery from Eeisberg would have enabled it, as it claimed in this litigation, that it had complied with his requests.

(Mark-Isent you this 5/22/85)

(The FBI filed Frandmother Oswald as a subversive.)

***I produced a sisclosed copy which had no redactions. It also was provided to another requester. Nothing in the records was ever subject to claim to exemption.
