

Mark Allen HSA - DAB marks

Dear Jim,

11/2 13/84

In a note on Nisbet's 11/13 to you in Mark's case you ask, "What does Serial 62-109060-433 have to do with it?"

For a reason not, apparently, connected, I thought I recalled that Serial. But on checking it turns out to be replaced by a slip sheet recording that six pages were referred to State.

The number does seem familiar, but I do not recall why.

If I were going to hazard a guess about the undescribed 1975 matter that was the subject of Adams' testimony it would be the Hesty destruction of the Oswald threatening letter.

Best,
