Re: Appeal # 80-0378

Dear Sirs:

In your letter of 31, March, 1980 you affirmed initial action of the Federal Bureau of Investigation concerning my request for access to Warren Commission Document # 729.

Since that time I have acquired six pages of this document from other sources. Under these conditions, though it is not my intention to belabor the point (I realize your heavy FOI load), it would certainly be appreciated if you would review your initial action in this case.

I do plan judicial review of your action, but after acquiring a portion of the document, I felt it would be in both our interests for you to re-evaluate your decision.

Sincerely,

J. Gary Shaw
