

Dear Jim,

6/5/84

Beginning with Mil's typewriter being taken back again, this time to be shipped to the factory, there were unanticipated delays in getting this done. Even my reading of it had to be hasty so I can make tonight's outgoing mail.

We have the original.

If you have any questions, I'd like to discuss them. I see no mention of any affidavit in what you filed, which came today.

Koppel let himself get carried away. I think the content of this may be the kind of thing Mikva was looking for and may interest Starr.

Best,
