

Dear Jim,

11/26/83

During this morning's therapy I made a few notes on the public benefit of 1996. To give you an idea and solicit suggestions I type them as I noted them, without attempting what I will do after I've had a chance to think some more, arrange them by character and subject.

not mentioned in brief. Also made. Harris papers, scholarly articles
Invaders, strike-domestic intelligence-political campaigns, city counsel, self-help orgs., business and private lives, King's party. Uses made.

B

Extent of FBI campaign vs King

~~A - Crime never investigated (UFAC only)~~

~~A - Crime facts other than represented~~

X B

~~Political objectives outweigh criminal enforcement - deserters, etc. ignored.~~

Abstracts - not previously known to exist, not duplicative, extraordinarily valuable research tool.

B Ticklers-character-political in political cases, for political (mis)uses political in political cases; intimidation, blackmail, propaganda; critics

X B

~~Filing, character - used to hide during searches yet easily retrieved on proper search. Surveillance, denied in 1996, hidden in bank robbery files but existence denied because not in MURKIN. Other than as sworn to by FBI by content, purposes and uses. - 94 files~~

~~A Control name of FBI's game- Ray charges not filed in Mps, where FBI could not control USA (said instead not dependable); filed B'ham, where no crime committed.~~

~~A Nature of B'ham charge, how conspiracy alleged~~

? B

~~Surveillance- spied on defense (Patterson, Gebhart, etc) (66 file on Stoner)~~

~~Used in intrude into local political affairs. PD series on records~~

~~FBI would violate law, constitution, ~~for~~ jeopardize prosecution for immediate political objective of saving face. Urged while predicting loss of civil suit and argued worth it. Permission denied but done anyway, results hidden in other files, then condemned AG for not granting authority.~~

~~A Stephens only alleged eyewitness, made negative identification, followed by CRD and FBI taking affidavits pretending identification he had already denied,~~

Harris

then used in extradition. (CRD last version used)

~~Extradition records - pretended complainant with Judge Curran's Order then wrote internal memo saying all not disclosed.~~

~~Withhold of what can be embarrassing from Cong, internal investigations, OPR, by tricky filing. Example, Invaders, Strike records not in inventory, as are no 66s~~

~~Enormous wastes of time, money to compile irrelevant records with costs, time, volume then tabulated to present meaningless statistical representation of what was done, mostly irrelevant, MISLEADING. Persisted in requiring such record-keeping over objections of field offices.~~

~~FBIHQ hides in FOs what it does not want to surface in FBIHQ searches. In this case includes basic evidence.~~

~~Cooperative deals with local police in domestic intelligence operations of great extent. Cross-filing in more than 150 political files.~~

~~Control of cases with political ramifications by leaks, planted stories. O'Leary, RD, Ray's letter to judge, etc. Quoye O'leary, ref 4/15, Item 7.~~

~~Party to violation of Battle's order, no spying on defense. FBIHQ told Memphis only not to get caught by continuing to accept copies. Paraphrase instead. Knew local authorities made false denial and then continued to spy on defense.~~

~~Payne case knew police murdered young black and covered up.~~

~~Abuse critics (me, Stoner) Prejudicial info to Haile, who threatened to get me. Attitude toward DJ, AG. Praises for arrogance, insubordination, insolence-Clark Attitude toward blacks: monkey-faced, boy, etc.~~

~~Widespread distribution outside FBI, including military agencies, of domestic intelligence info.~~

~~Made NAACP leadership symbol informers, used to spy on black community. Into high schools, colleges, churches - campaigns vs ministers preaching peace, friendly toward blacks. (Sch. 489)~~

~~Use of press for political purpose - "Chicken a la King." O'Leary, Frank, Refused put in the hands of the press - but are on the edge of the - Have - all out~~

critics

X
B Spying on ^{the}ing greater and different than disclosed. ~~W&W~~ Use LA Times, WxPost stories re collaboration in spying with CIA. Red. brief, which denies.

Selective disclosures and refusals to disclose info from local, foreign police and foreign intel agencies. Did disclose when served FBI political purposes, including identity or both officials and organizations, by name and facsimiles & of records they provided.

A ~~Ray ultimately identified by means FBIHQ opposed vigorously, by RCMP, which FBI also opposed. It had nothing at all to do with Ray's capture. RCMP work and accident made that possible.~~

A ~~FBI hides crime-scene pictures inconsistent with what it wants believed and reports if it cannot avoid them entirely. Avoided all press pix except "ow's and then lied about them (under oath) and then to withheld from study. Never used in investigation.~~

~~Offer in camera illustrations of significant info re crime, recall that earlier offers rebuffed.~~

Nature JEH's notation^s and annotations brought to light this case.

B ~~Electronic surveillancesearhes limited to subjects of surveillance when FBI also indexes overheards and mentioneds - and withheld in this case while attesting to complete search. Example, me overheard in Jerry's call. Filed bank robbery, not NURKIN.~~
