Re: Files of the Kennedy Assassination

Dear Sirs:

In your agency's F.O.I.A. review of June 1976 concerning the files of President Kennedy's assassination, Document # 555-804 was made available to the public. A copy of Page 5 of this document (see attached) states "...FBI is bringing to Dallas two copies of six photographs of six persons one of which could be Oswald." Portions of the remainder of the document have been deleted.

Under the provisions of the Freedom of Information Act please furnish me with copies of each of the six photographs of the six people as well as identities, if in fact, such was ever determined.

Please be assured of my firm commitment to pay any and all costs involved.

Sincerely yours,

J. Gary Shaw
