Mr. Peter Pritchard USA Today 4000 Wilson Slvd., Arlington, Va. 22209

De r .r. Pritchard,

I've just seen Tony Pauro's last column in the quill and because you are now chairman of the FOI committee I send the enclose copy of my en banc petition in a case that I think can pretty well nullify FOIA where the agencies really want to stonewall and withhold.

I see also a great - and unreported - danger to lawyers, not just in FOI case, not only pro bono counsel, but the biggest firms representing the largest and wealthiest corporations.

I've had considerable experience under FOI and with DJ lawyers and think I can estimate what they may do with some confidence based on that experience.

Good luck and successful labors to you and your committee.

Sincerely,

Harold Weisberg 7627 Old Receiver Rd. Frederick, MD 21701

P.S. If you are new to FOI, Congress amended the investigatory files exemption un1979 over one of my early cases and as a result of what Judge Gesell referred to as my persistence.
