

Dear Jim,

7/15/84, night

I'm tired and I'm going to stop work with this, after I make the envelopes up. I'm sending Lynch's copy also by special delivery. It will not go out until tomorrow night but you should both have it Tuesday.

I think that these are three very material new lies, particularly on the burden of proof. Please call this to Bud's attention immediately.

Also, please see if Lynch wants the Gaire exhibits in any clear form, as I state in the letter.

The rest of this week will not be easy. Dr. Hufnagel was incredulous when I told him that I'd sprayed 150 large pines and the earth around them. Also impressed. I suppose because he believed this beyond what my leg would take, even taking it as easy and steady as I also told him. But I have them all to spray again and again this time next month.

My only real concerns are falling and humidity. I think I'll be able to take the heat because I rest inside after every sprayer tank. One of the reasons I'm stopping now is because I'm tired and don't want to get overly tired. I've been out only once today, when I took Lil grocery shopping this morning.

Jim, we now have a fantastic case, like we've never had it before because the case record proves all these things to be lies and knowing and deliberate lies. I've not gone over what I've sent to put it all together, but there must be more ~~stax~~ significant lies because they never do anything else.

I told you that the thing to do with an axelrad is to out wheels on it!

I'm not going to say any more about the pages Lil has copied and is not enclosing for me. But I'll try to remember to go over them tomorrow.

I think it is now appropriate to think of what when 9and if) it is appropriate we ask be done as a result of proving all this terrible business. I mean officially.

(I didn't have to make a trip into town to mail today, fortunately. The daughter of a dear friend and her boyfriend were here to swim and they did the mailing when they left, several hours before the pickup.)

Do I remember correctly that Lynch described filing to expunge as "stupid?"

Contrary to some allegations, I'm not Merlin and can't read the future. But I do believe that this can become quite significant.

est,
