

8/13/84

Dear Paul and Phil,

For the time being I'd prefer silence re the enclosed exchange with the DJ appeals office.

When I feel up to it I'll finish the search of the subject file. I do not expect it to disclose more than additional detail relating to ignored appeals and I'm sure it will not be complete because I did not establish that subject file until after my earliest appeals. It is not possible for me to go over the vast volume of the appeals themselves to get a complete set of all those Oswald/Mexico appeals.

But if anything interesting turns up I'll let you know.

All of this is involved in the case now before the appeals court. Ordinarily both sides are restricted to what is in the case record so I have no reason to believe that this will be used. But because DJ/FBI did go outside the case record and also grossly misrepresented the character and content of my appeals and because there is no limit to what the judges can ask, it is not 100% certain.

Best wishes,
