

Mr. James K. Hall, chief  
FOIPA Section  
FBI  
Washington, D.C. 20535

5/29/81

Dear Mr. Hall,

If anything within my recent experiences led me to believe that the FBI is capable of human emotions, like shame, I'd tell you to be ~~HEJKA~~ ashamed of your letter of the 27th and what it represents. Besides its self-serving character and untruthfulness, which make it a more or less typical FBI letter.

If any of you had any decency, when you are impelled to play dirty tricks and juvenile games with a sick old man, you'd at least refuse to accept public moneys for that sport.

Not only did you provide deliberately illegible worksheets, your letter of two sentences pretends they are not illegible. Even when you state that you have rewritten what in your words appeared to be illegible.

And, naturally enough, you have not done even the entirely inadequate thing you pretend to have done. You have not rewritten all the illegible entries and you have not provided those that are eliminated in your making holes through them. You also have not provided the withheld information.

On the Marina <sup>o</sup>swald worksheet the file identification remains withheld. On the other worksheet what is written in where the file is to go remains illegible, with no effort by you to make it legible. Dates and other information remain illegible and uncorrected.

This is an original record. There is no excuse for any of it being illegible. The only apparent purpose served is your indulgence of nastiness and pettiness. There certainly is no need for any lack of clarity with an original record.

The pages I provided to my counsel were not all that are not clear. They were to illustrate the problem you manufactured as part of your unbecoming harassment. You do not say you have reviewed any others and you provide no copies of any others. Nor any explanation of how and why you made ~~EXX~~ original records illegible.

The only apparent purpose for continuing to withhold the dates of processing, which were to have been provided, is to hide other FBI untruthfulness. Sincerely, Harold Weisberg
