This is to confirm, and to provide in written for future guidance, the procedures to be followed to provide the House Select Committee on Assassinations information on any present or future investigations being conducted by the Bureau into the Martin Luther King or John F. Kennedy assassinations. These procedures were developed after my conferences with the staff of the Committee and Mr. Paul Daly and Mr. Jack Lawn of the Bureau.

BEELMAN

As reports are received they will be inserted, except in certain limited cases, in the open file which is available to Committee Staff for review. Every attempt will be made to have such material in this file within five days after receipt. Furthermore, an open non-recorded file will be maintained so that copies of incoming materials will be made available to the Committee while the recording process is being conducted.

Additionally, when it is deemed appropriate by your representatives and/or by me that material be brought to the Committee's attention immediately or in a special manner, I would request that notice be given to the Committee staff by your representatives and in the absence of any objection from them. Should an objection be made, I will fully consider the matter and make a decision only after consultation with your staff.

REC-1247 62-117290-222
MAY 10 1977

I have informed the Committee staff that there may be special circumstances where information may not be made available pursuant to these procedures, such as where an individual asks to speak to Bureau or Departmental representatives but stipulates that the information provided not be communicated to the Committee or outside the Bureau or Department.
