in want JFK release 11/18/78*

FBI-CTIA #62-112697 177 pp. 33 serials.

- X 1. Hoover's note on wire copy on formation of CTIA asks for memos on Fensterwald, Sprague, Tupling & Flammonde. He does not ask for one on Bull Turner, Fred Cook, so he apparently remembered the existing records on them-or had them in his office. Date 1/3/69? Garrison, too. Also 1. Is the 1/6/69 memo. It notes files (77-44206) for Senat<sup>r</sup> Long's resignation and on Tupling, 100-179915-23, one of their Internal Security files. Sprague 62-109060-6520.
- X 2. <sup>Not recorded.</sup> Hoover's 1/14/69 to CIA is CSCI-316/00108-69, with a Garrison title. Bud file is 77-44206-34. not recorded 1/4/69 letter from CIA referred to it.
- (X) 2. 1/14/69 Rosen-DeLoach. Includes my name underlined, note says they have tape of this show on WAVA. *see note yellow pad - not*
- 3. Hoover's note on 3/18 wire copy calls Bud "a fraud."
- 7. Alexandria report, indicates inside source.
- X Not recorded of 6/9, 6/15 and 6/30/72 referred to CIA. Also 7/16/72. *not provided*
- X 13. To this date, 7/24/72 all FOIA requests handled by Crime Records Division. This leave no doubt about the Crimes Record function; "These [FOIA] ~~matter~~ questions are matters of law, not publicity." So they suggest transfer to Office Legal Counsel.
- X 13, 14, 14X can be helpful in CA75-226. They report what Gallagheher had that I do not believe I received, state policy not to deliver and Department policy to deliver and avoid litigation that can establish an unwanted precedent. Separate copies to JL and for me for possible supplemental affidavit in 226.
- X 15. May supply the answer on how the Dallas FBI had the pictures from Mexico City 11/23/63- "flown to Dallas by SA Rudd" this says December 23. Accident? Deliberate? Coincidence?
- X 16 withheld without explanation
- X 17 Is memo with incomplete Guterrez Valencia report CD 566 attached. *- all public*
- 18, 19 referred to CIA. 2pp and 3pp. *not provided*
- 20 I Bob Smith's pro se suit on his three requests. There are <sup>two</sup> ~~three~~ records all with this same serial, 20. The second has a false, misrepresentative and misleading affidavit by then Inspector John A. Mintz, as of this moment being considered to be Director. He does state a policy directly opposite freedom of information.
- 24 Referred to CIA.
- Not recorded 11/13/72 withheld under b1.
- X 31 ref to CIA
- 7 added pages, separate worksheet
- X 91-34552, 100-454525, <sup>47</sup>100-467172, <sup>11</sup>170-5905, <sup>9</sup>62-10960, 6053, 6054. 100-454525 has masked source on Bud and ref to a Detroit inquiry apparently by him, from a source there, I suppose. Det. may be second record above. Third had confidential source with WFO request, do they want coverage by source. 6210960 on Giesebrecht, 6064 Hoover's note asking for memo on it. But no ref. to CTIA.
