Dear Mr. Moschella,

re: No. 277,836

Enclosed is the check you asked for under date of 11/27/89, for \$11.70.

I send it rather than argue.

A fee waiver was granted many years ago, first in one lawsuit, in which it was limited to that lawsuit, then in another lawsuit, under judicial pressure, when it was made all-inclusive, administratively, by the Department.

There is another administrative decision in which the FBI joined that it since has not lived up to. It agreed that all records relating to both the JFK and King assassinations and their investigations that were disclosed to anyone would also be disclosed to me.

As you may remember and I'm confident others on your staff know, I am of limited mobility, sometimes have difficulty search^{ing} files, and your use of a case number that may be the means by which you file has no meaning at all to me. I'd appreciate it if a brief description of the request were included.

If my guess relating to what this ^{is} ~~is~~ correct, you should have responded before now to some requests I made relating to it and to whether or not you are in violation of your own stated standards are PA.

Sincerely,

Harold Weisberg
