JFK assassination records appeals
PA request

Harold Weisberg 12/3/79

Unjustifiable withholdings

Attached is 62-109060-5999, a letter from Les Whitten to the FBI's Tom Bishop.

In response to Whitten's PA request a deleted copy was sent to him, it says on the record. But the copy provided in the general releases and to me is entirely undeleted.

This is my experience: the FBI withheld from me, in response to my PA request, what it released to others. The net result is that I was denied my PA rights, of filing correction of the fabrication and defamations.

This reflects what I have described as the FBI's mindset.
