

Dear "in,

6/27/84

The enclosed copies of my today's letters to Huff and Ziebell are self-explanatory and, I think, provide a no-lose suit. If you want explanation of this opinion, let me know, because the CIA will lose even if it prevails before a rubber-stamp judge. And I think both the DJ/FBI and CIA should be sued.

Maybe Bud will be interested because of his long-standing Mexico interest and perhaps because he has a related matter before a fair judge.

Mark has an old CIA request that probably includes this matter. I filed a more inclusive one after he filed his. And, of course, it is also within my very old all-inclusive JFK assassination request.

Too bad Wuld ended this line of questioning when he did.

As I go over the copies of the pages of the transcript of which I wanted copies, I'll make copies for you. If you want it returned immediately, please let me know because Wil wants to read it.

With what is included in my DJ appeals they'll look very bad in court.

I would consider filing suit for this because you already have everything you need, much of it entirely undisputed in court records and the rest already filed in appeals.

Do you think Bud would like to depose Phillips and perhaps those who were interviewed by Kessler and HSCA? Eldon Rudd? Blakey? Ziebell?

And how can they now make any b1 claim? Or 7C or D? Any?

I kind of think Bud might find this interesting.

And the CIA's record with me is worse than even the FBI's!

Bart,
