

Dear Jim,

9/18/89

I'm now at the bottom of one of the stacks on my desk and what remains is a series of letters from DJ and FBI some of which I'll next address, absent something in the mail.

I don't know why but most of the time they say they'll respond through you, yet this time Nisbet wrote me. I don't see my letter she cites yet I can't imagine that it is a new request. On the one new one I've heard nothing from Moschella/FBI - who they disclosed all that old stuff in which I am peripheral for the most part.

Do you have any idea what this is about?

Best,
H
