Martin Blabata

RetAD/AACTO.-TE MORE PLEASE

Thanks you very much for your letter of the 9th and its enclosures, which are

Some years ago I filed a relevant appeal that to the best of my knowledge was some acted on. Four of more years ago Mr. Shea discussed it with me. I now do not some appeal. This is the background:

The FMI obtained dubs of the recordings of the Dallas Police Department on both chemnels, as is established by the records of the Warren Commission and the FMI itself. These dubs were kept in the Dallas office. They also were transcribed for the Commission, with the transcripts only sent to FMHA for forwarding to the Commission. It published at the resonance of the Dallas FMI did not send its dubs of the police recordings at the resonance of the Commission. It also did not file them in its main assassination the assassination investigation. They are not included in the Dallas index, which I have and have checked. This index is to the main files from which information was the other relevant information that is in other files.

To the best of my knowledge, no search has ever been made for these dubs in Dallas.

I believe that the NAS study of other dubs and possible original recordings makes these FEI dubs even more important to the historical record. I believe there is no real question, that they are within my requests.

Of course I am still anxious to receive them.

Will you please thank the Criminal Division for se for recalling that this MAS study is within my requests and for sending it to you for me?

Sincerely,
