

3 5th appeal

When I prepared the attached on March 15 I had the records referred to in it. They were not with this when I came upon it. If they show up I'll provide them. If not I'll try to replace them when I can. However, the FBI's records it can provide from the identifications included. I expect to see the student who worked in the CIA files in two days and may learn more from her.

The last time I was in your office, when these two students were with me, I had and gave you a set of the worksheets and other materials prepared by one of the students. Possible what was intended to be attached to this was with those copies. If so I'd appreciate knowing.

There may be more that dates to the tax season, when the copying and other work tended to accumulate more.
