X

The following statements were made by the persons indicated.

- BOUWELLE -** White and black people should unite and organize through Marxism. Then the revolution should begin. The LP and Cubans were all organized. If you don't organize the black will be slaughtered.
- ROBERTS -** The white radicals Jewish girls come down to Watts to get screwed by the black men, not to help them. When the revolution comes this summer the white men better come down to help with guns or not come at all. She made an attack against Lisa Williams of the Free Press.
- GREENWOOD -** If you want to come down to Watts with a Marx book in hand, you better come down with a gun in the other hand, or they will shoot you the same as they would shoot down the police. Don't come unless you are willing to bring your gun and fight in the revolution. He asked a question of the audience, "When the fighting is going on this summer how many of you will come down and help us?" One person raised their hand.
- WRIGHT -** We are going to need help from the whites. In reply to a question from the audience; What can we do to help? She stated, "When we are getting the police on the front, you can come from their front and from their rear. We will knock out the police stations and kill the fascist cops."
- JACOBSON -** The white radicals have promised us guns and ammunition but they've come through. We've got a lot of guns and ammunition but we can't use them. The guns and ammunition can be donated through...

or my associated.
