Dear Mr. Huff,

How endless you people make everything! How wasteful, costly and how often in unhidden violation of the law!

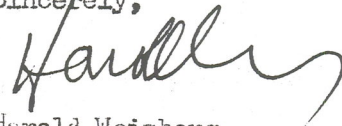

I made copies of some of the enclosures to your letter of the 6th and in getting around to filing them I note that search disclosed files relevant to my request for all records on or about me that are not indicated as provided. Yet they are listed on two different DJ forms.

I made a much earlier request to the Civil Division, which ignored it. Then my wife made a request. She asked me to file an appeal. You provided a copy if it, of 2/16/77. And only a month after that was any request for any search made. Compliance did not follow it. *(In records on me)*

One of these forms lists eight files with relevant information. Another of these forms asks for a search of five of them, but of the five, only one is checked as searched.

With regard to the Criminal Division, as my earlier and ignored appeals state without subsequent denial or refutation by Criminal, it has relevant records it has not provided after all these years. And after, as I reminded you re EOUSA, written reminder by your office to all components.

Sincerely,

Harold Weisberg
