To Quin Shea from Harold Weisberg (JFK) assassination records appeals 8/4/80

(Criminal Division) records sent 7/29/80
        Records referred to but not provided or accounted for.
        Indices and diary exist but are not provided.
          (Jim Garrison's "Follies.")
        Civil Division records not provided.
        FBIHQ records not provided
        N.O. F.O. records not provided.

Attached as my appeal is my today's letter to the Criminal Division pertaining to what it send me under date of 7/29/80.

As you can see there are references to a diary and an index not provided or in any way accounted for.

There are pertinent Civil Division records it has not provided. (Has it provided anything at all?)

Once again a large number of records are not provided but are indicated as existing from what is provided. More than those that were routed around by routing slips.

While with so large a volume of records recollection cannot be depended upon, I have
                    provided or
no recollection of any FBIHQ or N.O. record/referred to pertaining to the tape, # 1064.
In the absence of the record routed by that slip one is left to conjecture, but it does appear to be probable that the origin was the FBI and in the FBI, N.O. This also would appear to pertain to any investigation of Garrison's purchase of a home and his debt.

Reference to this tape reminds me that in the JFK case I was not provided with any transcript of any Garrison phone conversation but part of one was provided in MURKIN records. I mention this to provide you with additional leads pertaining to continued withholdings from FBI N.O. records, a matter on which the Department's time is running out.

The Department has disclosed a deal with a former New Orleans policeman, who arranged to tape phone conversations with Garrison and was wired for sound when he met with Garrison. That person also once arranged for me to use one of the tapped phones when I was asked to make a radio broadcast by phone. (Remember my PA appeals, including N.O. ?)

I remind you again of N.O. files not searched, some of which I have identified to you.

Harold
