

CUUK. JFK & PA

To Qain Shea from Harold Weisberg, JFK and PA records appeals 6/15/80
Criminal and Civil Divisions; OIG
Criminal Division records and letter of 6/10/80
C.A. 78-0322 * records not provided
GSA- executor of JFK's estate letter agreement (autopsy materials, etc.)

With this I provide a copy of the cited Criminal Division letter and my response, which I intend also as an appeal. Also with this is a separate appeal relating to records on and about me not provided under my PA request or appeal, copies of some of which are in the Department's 138-11 file. If you do not find both self-explanatory please let me know.

Initially the letter agreement between the ^{representative of the} executor of the JFK estate and GSA was withheld. Thereafter I never obtained a clear copy. Despite other requests that include it a clear copy was not provided later. The Criminal files reflect that the original, and I presume other pertinent records, are in OIG. These other records have not yet been provided in any form. They are all of great historical importance and I would like copies, please.

Several quite interesting records pertaining to David M. Ferris are included in the 6/10 mailing. David Ferris, deceased in 1967, is within C.A. 78-0322. Until I obtained these Criminal Division records I could do no more than allege the belief that because Ferris was in the federal courtroom on 11/22/63, when Charles Marcello was on trial, there should be other records not provided. These records leave no doubt that others must exist and can be retrieved with no difficulty. Ferris was defense investigator in the Marcello case.

In my letter to Mr. Bentley I refer to the litigation involving the GSA- Burke Marshall letter agreement and autopsy-related materials and records. I have personal knowledge coming from my participation in that case until the lunch recess, when I separated myself from it. Civil Division has important records pertaining to that matter. If Carl Bentley or Irving Jaffe left any separate records they should be searched. Any H.O. FBI records also are pertinent and within my request.
