All of the text of Not Recorded 4/16/64 in 62-109090 is withheld by 2040, without regard to whether the Commission disclosed the FBI's letter to it or any reasonably segregable content.

Efforts to locate the identical record in other files are inconclusive, although the worksheets disclose only a single Hoover to Rankin letter of this date in 105-8225, Serial 3575. There it is totally withheld, not even the addressee being disclosed on otherwise blank paper. The worksheets are not clear. It appears that claims are made to b1 and 7D, possibly C. The record of the FBI is that it makes these claims for what is within the public domain.

Serials 3577 and 3578 appear to be related. Both are referred to the CIA, which has not acted on them in more than two years.
