

Metcalfe's 7/19/78 # in 78-322 and 420, please ask them to use certified mail as they have in the past because it is safer and is sure to get the boxes off the road as under postal regulations priority or first class or uninsured parcel post does not require. Because the rural man requires a signature for certified (or insured parcel post) he is required to take what he has to the home.

HW 7/28/78
