

chron

5/9/81

Dear Mr. Buckley,

You responded to my letter of the 12th on the 21st. However, I was rushed to the hospital the night of the 20th and did not get back until day before yesterday. This explains the delay in returning the original of your #1959, which is enclosed.

I have not made any copies so I will await your providing one, with the excisions you desire.

While I was hospitalized other records came but I've not yet been able to look at them.

As soon as it is possible, I will.

I believe I've raised this before but I recall no response - when are you going to get around to complying with my request for records on me?

The request was made five years ago. There was less than minimal compliance by a few components and I did file appeals. There also was a reminder from Mr. Shea several years ago.

The Criminal Division does have records that remain withheld.

Sincerely,

Harold Weisberg
