

"The Records"

To Quin Shea from Harold Weisberg, JFK & King assassination records appeals 12/24/80
Oswald-Mexico (Epstein request)
Records of Divisions- need to search (includes Dallas records)(practice
pertinent in King case, C.A. 75-1996)

Attached are 105-3702- 1387 and 1398, both from the Mexico City Legat's "Oswald"
file. The last digit of the serial of the first is eliminated in zeroing, that of the
second partially eliminated.

Both of these records related to FOIA requests, although 1398 does not so state,
but in neither case is the usual FOIA response requested. Both records bear on the
need to search the records of the Divisions, which, pretendably, do not exist, for
real compliance in both cases.

Response in the Epstein matter (subject of a separate request and pertinent in both
Dallas and PHILM cases) is directed to the ~~summary~~ renamed "Crimes Records" operation,
"External Affairs." That to the Fensterwald request is to be made to the Domestic Intel-
ligence Division.

They also pertain to Oswald in Mexico, the subject of separate requests and appeals,
and in particular to whether or not Dallas has provided all it can. In this connection,
while the language is ambiguous, 1387 appears to state that when SA Sidney Huda flew to
Dallas from Mexico City he had 20 photographs with him. (To the best of my recollection
all
these have not/been provided by Dallas or PHILM. Some were provided to Fensterwald in his
FOIA litigation.)

Names disclosed in these records, none not previously known, are also withheld in
M and Dallas records, which I did appeal.
