Harold Neisberg 2/25/80

You will recall that you have not acted on my appeal having to do with information and assistance provided to Epstein for his Rosenberg book, in return for which he blew an FBI Soviet double agent known as Fedora.

In 62-109060-7725 it states that an FD-302 is attached. It was not and appears not to have been provided elsewhere. It was not provided from the Dallas office, to which it was sent by New York. (Also to Albuquerque and Miami.)

The record is the airtel covering an interview.
