Dear Jim,

9/21/79

The file number of the attached record is unclear. It is from the HQ Commission. file, 62-109090, a Not Recorded Serial from Section 13.

I attach it because of the FBI's own interpretation of PL 88-202, which is on page 2:

"It provides that information developed by the commission relating to the President's assassination should be made public."

This would seem to include all information developed for the Commission by those who served it, like the FBI, Secret Service and CIA.

The marks added to the attachments are by the FBI, which used copies from other files. Please note on page 2 of the Resolution, that "all documentary evidence presented to the Commission" is included. This would seem to include more than is in the Archives and would include all the Commission returned to the agencies.

The FBI's interpretation of the Executive Order can also be helpful. It reads, "The purposes of the commission are to examine the evidence developed by the FBI and any additional evidence that may hereafter come to light or be uncovered by Federal or state authorities..."

This would seem to include everything and to mean that everything is to be "made public."

Hastily,
