

JFK assassination records appeals  
File shifting

Harold Weisberg 8/23/79

This appeals the withholding of the record relating to the Warren Commission, 62-109090-632 by eliminating it from the Commission file in 1973 and transferring it to 62-115594, where it is not Serial 8.

If other Commission files were so transferred this appeal is intended to include them even though the "Changed TO" sheet for the one only is attached.
