

Files not searched - Divisions

JFK assassination records appeals
Files not searched- the "divisions"

Harold Weisberg 9/22/79

You have not acted on my earlier appeals from the refusal to search the files of the various FBI Divisions.

As further indication that the Divisions do "maintain" their own files, records and copies of records that are in the central files I ~~XXXX~~ attach 62-109090 Not Recorded dated 4/16/64 and 5/18/64.

On the second page of each you will find that the Divisions do "maintain" their own records and that to comply with Commission requests their files, not those of Central "records, had to be and were searched.
