

~~withholdings to protect foreign operations~~ one of the more durable lies of the FBI and CIA is that they must withhold to hide their foreign operations, for all the world as though they are not well known. This is but the most recent record I've received that is in accord with the fictitious claim. Here the FBI discloses that its Italian operations include both criminal and security. It is not an accidental disclosure. These records were reviewed and were reviewed by the appeals office also. HW 8/9/81
