

JFK assassination records appeals  
New Orleans Metropolitan Crime Commission  
Jim Garrison

Harold Weisberg 10/15/79

Under the former FBIISA Aaron Kohn the New Orleans crime commission spearheaded attacks on Jim Garrison's JFK investigation from its outset.

Kohn and his commission were very public in this. In Section 40 of 62-109060 there is a booklet they published, which is in accord with the FBI's position. It received considerable public attention. This was before Garrison's "probe".

In the same Section there is a Not Recorded serial of 1/17/64.

What "Action" is recommended on page 2 is obliterated.

I/appeal the withholding.
