JFK assassination records appeals
Improper withholdings; inconsistencies
National security claims
Withholding the reasonably segregable
Inaccurate worksheets

Attached are 62-109090 Not Recorded of 1/30/64, the same record as it is 105-82555-1594 and the worksheet for the latter. The copies of the records attached are of one page. The worksheets states there are two pages, both withheld under claim of b1.

The obliteration on the 109090 copy extends to what is not withheld on the 105-82555 copy and does not appear to fall within any exemption, "(note continued page 2)".

The claim to classification on the 109090 copy does not appear to conform to the requirements of the E.O. It merely has a notation stating, "Revised 2040 7/9/77" followed by initials. The other copy bears the stamp and states that 2040 did the classification on the next day.

I also appeal the withholding of what is reasonably segregable and again question the need to classify, the justification of classification (especially after all this time) and of whether the public domain is classified
