

Dear Jim, FBI/DJ FOIA/PA Compliance, intent - vulnerable testimony 4/11/78

The attached pages are from the transcripts of the DJ FOIS testimony before the Abourezkh subcommittee.

I regard Lynne's statements as more than merely misleading.

I believe they bear on whether or not her misrepresentations to Judge Green both in camera and at the last status call were merely lapses of memory.

While I have nothing in mind for this for the present there may come a time when you may want this.

Meanwhile, it says all over again that the best of these people are not to be trusted, are not truthful and can't be depended upon to keep their part of any bargain, such as stipulations.

The transcript Shea gave me is not complete. I have gone over it and placed paperclips at points that may be of future interest.

In general these points are those at which the representations to the Senate were other than our experience.

In some instances the policies stated were not practised with us.

Hastily,
