

JL- political items in 1996 and supp. request I made last summer

1/28/78

I referred to this when we spoke yesterday.

I recommend against telling the Civil people any detail. But as I told you it is to the King people. You may recall that Peter Taft was involved.

One of the reasons I recommend against giving them the proof is that prior experience indicates that if they then comply they'll limit to what they think I know.

The references I have made are all to HQ MURKIN:

6128

6130

6132

Not recorded: after 7/30/76, Deegan to Leavitt; after 8/6/76, Phillips to Leavitt.

This included all they gave the Church committee.

This means it was not locked up by the court and stashed in the Archives for review.

If it did they have separate copies of what they gave Church. It works that way.

I don't think they can argue that what they give me they have to give everybody and what they gave the King people they give to nobody, including prior requesters.

I'm pretty sure I gave you extra copies of these records for just this purpose.

Best,
