

JL- remy 7/6/78 "On Non-Compliance..."

HW 7/6/78

I have completed preliminary searches indicated as needing doing in memo.

In short I was not given any of the relevant records.

Before going into what I checked and how the Chicago TT, of which you have a copy, is Not Recorded of 12/12/75 and thus is the one response to (b2?) artists let slip through, as are the Dallas records cited on JFK. I recall making an extra copy. Because I can't find it under any foling and because I recall discussing this with Hartingh et al I presume I gave him that extra copy.

While there was no reason to expect a King record to be in the DL JFK files I did check. It would be in Volume 82. The only records possible are improbable, 9676 & 9706, both of 12/9/75. On 1/24/76, the HSCA one, which should be included and should be in Volume 83, nothing at all possible in entire Volume, which runs to 6/76.

The King 12/9/75 record should be in MURKIN FBIHQ Section 85. It is not and that Section runs through January 1976.

Following are a few notes I made in this check:

6002X is the first ref to our and CBS's request. 6004 X is the 12/1/75 to you with your address masked and probably copies of what was provided attached.

6013X shows the GID involvement in any King action, in this case apparently the GRD review. (The correlation between the GRD review and the request can't be missed.)12/9/75.

On the Powell brothers, whose names were withheld, the first record appears to be misdated as 1/6/75. It is at this point and I think should be 1076. 6042.

The 12/9/75 TT is Bufile 100-106670 as best I can make the numbers out. 100= Internal Security. I think some of my FOIA is filed 100. Natch.

I should have noted that FBIHQ in 89-43-9952, actually 1/6/77, with day omitted in TT, lists five Dallas JFK files although McCreight referred to two only. He omits the Marina and the WC files. We didn't.
