

JFK assassination records appeals
re Gordon Novel

Harold Weisberg 8/15/79

The attached news accounts of Novel's most recent public attention came in today's mail. They are from a New Orleans paper, I believe the Times-Picayune.

The trial referred to attracted more attention.

This most recent part of Novel's career was known to the FBI at least a year before it began to process the JFK assassination records.

The DA referred to in the story is a former N.O. AUSA.
