

To Quin Shea from Harold Weisberg JFK assassination Records 8/16/78
Dallas F.O. Oswald files - worksheets

Attached are two of the worksheets for Volume #72.

As you will see both represent that they account for Serials 8500 and 8501.

In doing this each describes different records.

Each also represents that the records were "Previously Processed."

This error merely compounds the impossibility of locating any record indicated as "previously processed."

As I have said before, not providing the field office records and claiming on the worksheets that they were "previously processed" becomes a form of withholding.

This is particularly true when Mr. McCreight writes me that this means they have been provided and when I check I find that the record has not been provided but in fact is withheld, under claim to exemption.

I would appreciate the replacing of the #72 worksheets with an accurate set. I would prefer not to have to replace pages, to be certain that there is no error.
