

To Quin Shea from Harold Weisberg, JFK assassination records appeals 6/25/79
New Orleans and FBIHQ records - Carlos Quiroga

Attached is the Airtel part of 62-109060-5114, without the Bringuier-Quiroga propaganda listed in it. I appeal the withholding on page 3 and the withholding of the name, which I believe may be that of Carlos Quiroga. (The FBI made voluntary disclosure of Quiroga and Bringuier as its sources.)

By national standards these are crazy people. Their political beliefs are crazier still, as in regarding David Ferris, who was of the right extreme, as a Communist.

Quiroga made himself very much of a public figure, as did Bringuier, before, during and after the Garrison so-called "probe." Both precipitated the flight with Oswald/^Which got Oswald much publicity in New Orleans (used in Mexico). If you want details the FBI or I can provide them.

Quiroga also told the FBI what he suspected Garrison was up to with regard to him and the FBI has disclosed this.

He and Bringuier knew of the Garrison so-called investigation long before it was public knowledge, which can account for the interest in a nut as an informant, page 3. Bringuier was in touch with the FBI well in advance of the first Garrison publicity, whether or not Quiroga was, as I now can't recall.

The FBI carried Quiroga with a T number for a while.

I doubt there is anything in the withheld part of page three that is not within the public domain, a test the FBI never applies.
