

JFK assassination records appeals
Records not provided (Oswald as Informant)

Harold Weisberg 9/16/79

In prior appeals I have addressed the ludicrous behavior of the FBI in the paranoid attitude it had toward using any notary not an FBI employee in having affidavits that were to be published notarized. Attached Not Recorded Serial of 2/6/64 from 62-109090, Baumgardner to Sullivan, relates to this. Identification of the original copy is eliminated in the FBI's xeroxing.

This record begins with reference to "a brief which was prepared for the Director."

I do not recall seeing any record that is any kind of a brief for the Director on the subject of Oswald as, meaning as not being, an FBI informant.

Obviously this is an important historical matter and I appeal the withholding.
